4. List the pros and cons.

Look at the possible solutions you wrote. What are the **pros and cons** of each? How possible is each solution to make happen?

5. What solution could you and your community try?

Problem-solving requires **taking action!** So pick a solution that you want to try in your school, camp, or community. Write it here.

6. How can you start to put this solution into action?

Think about **how** to put this into action. Who can you talk to? What do you need to learn? What can you do with your friends or even yourself?
